Technical Information

Material: 100% wool felt

Fabric Width: 1800mm

Thickness: 2mm / 3mm / 5mm

Applications: Acoustic Panels, Room Dividers, Screens, Window Treatments, Decorative Wall Panels, Rugs.

Environments: Residential and commercial interiors.

Fire Rating: Type B requirements of BS 5876-2 : 2008

Care guide: Dry clean, vacuum clean, sponge clean, cool iron.
Felt is naturally hydrophobic which means that liquid spillages naturally roll off the surface and don't ingress into the felt if shaken or blotted off.

Eco Credentials: Our felt is made from 100% pure merino wool which is renewable, sustainable and biodegradable. It is coloured using environmentally friendly dyes. All waste material is recycled.

Please quote colour reference and required thickness when ordering.
